

# TRACIE LUND

INDEPENDENT FOR MORWELL

## FIGHTING FOR:

- A just transition, economic diversification & mine rehabilitation
- Social and public housing
- Investment in preventive health programs & community services
- Health in context of planning
- Climate action & response

I stand for socially just sensible responses.

I bring a fresh perspective and inclusive voice at a crucial time for our region.

I am determined to ensure my authenticity, energy, drive and community-centred priorities set the gold standard for local representation.

My independence ensures the major parties are held to account for their promises and offers an alternative political representation free from party-driven politics.

I am passionate about grassroots democracy and strongly believe that investment in and support of the community improves health and wellbeing, resilience, and employment opportunities.
